Arisha Ansari

Software Engineering Student

ansariarisha001@gmail.com | Karachi, Pakistan | github.com/Arisha-Ansari

OBJECTIVE

Software Engineering student with hands-on experience building full-stack MERN + TypeScript applications, including real-time features (WebRTC, Socket.IO) and authentication systems. Comfortable across the stack from React/TypeScript frontends to Node.js/Express/MongoDB backends, with growing depth in data structures and algorithms. Looking to contribute as a software engineering intern.

EXPERIENCE

Software Engineering Intern

DevelopersHub Corporation — Remote

- Independently designed and built Business Nexus, a full-stack platform connecting entrepreneurs and investors, across a multi-week internship track.
- Implemented JWT authentication and role-based data models (Entrepreneur / Investor) using Mongoose discriminators.
- Built real-time video calling using WebRTC with Socket.IO signaling, including meeting scheduling with conflict detection.
- Built a document module supporting Multer-based uploads, PDF/image preview, and e-signatures via react-signature-canvas.

Tech: React, TypeScript, Vite, Tailwind CSS, Node.js, Express, MongoDB, Socket.IO

EDUCATION

Bachelor of Engineering — Software Engineering *2025 – Present*

NED University of Engineering & Technology — Karachi, Pakistan

- Relevant coursework: Discrete Mathematics, Calculus and Analytical Geometry, Linear Algebra.

Intermediate (Pre-Engineering / Science) *2022 – 2024*

St. Lawrence Girls Govt. College — Karachi, Pakistan — 87.56%, Grade A-1

Matric (Science – Biology)

Raunaq-E-Islam Girls Secondary School — Karachi, Pakistan Percentage: 91.01%, Grade A-1.

PROJECTS

E-Commerce Full-Stack Application

- Built and deployed a full-stack e-commerce app with JWT authentication and an admin panel with protected routes.
- Deployed backend on Railway and frontend on Vercel; configured CORS and environment-based API URLs for production.
- Debugged and fixed a Linux case-sensitivity crash and remediated an accidental .env exposure on a public GitHub repo.

Tech: MongoDB, Express, React, Node.js, bcryptjs

MedSync — Clinic & Pharmacy Management System

University team project

- Contributed to a role-based clinic and pharmacy management system built with ASP.NET Core MVC and Entity Framework Core.

Tech: ASP.NET Core MVC, Entity Framework Core, SQL Server, ASP.NET Identity

SKILLS

Languages	JavaScript, TypeScript, C++, Python
Frontend	React, Vite, Tailwind CSS
Backend	Node.js, Express, MongoDB, Socket.IO, JWT Auth
Also	ASP.NET Core MVC, Entity Framework Core, SQL Server
Tools	Git/GitHub, Postman, Vercel, Railway
CS Fundamentals	Data Structures & Algorithms (in progress), OOP

CERTIFICATIONS & ACTIVITIES

- Introduction to Software Engineering (Coursera) ,2025
- Google AI Professional Certificate, 2026
- Coding competitions:
  Codesphere (NEDUET), TechFest, and HackFusion by IEEE, 2025
- IEEE NEDUET Student Chapter — Creative & Organizational Member, Graphics Team Member (2025–Present)
